Which session(s) did you enjoy the most, or benefit the most from, and why?

Were any sessions disappointing to you? Which and why?

What topics or information would you like to see covered at future Data User Conferences?

Lunch option 1 - Did you attend a lunch discussion forum (data visualization, social determinants of health, county population projections, Hispanic generational differences)? Which one and what thoughts/opinions do you have on it or spending lunchtime in a group discussion?

Lunch option 2 - Did you attend the informal lunch networking option? What thoughts/opinions do you have on it or spending lunchtime in this way?

What two or three things did you like about this year's Data Users Conference?

What two or three things would you like to see changed for next year? How would you change them?

Please list other suggestions or comments (good and bad) on anything, but examples might be food, materials, facilities, timing, schedule, cost, the registration process, etc. THANK YOU!!
